SUMMARY

I am an analytical professional with a strong foundation in data analytics, excelling at transforming raw data into actionable insights to drive business decisions. Proficient in Python, SQL, Power BI, and Spreadsheets, I am passionate about uncovering patterns, optimizing processes, and leveraging data to solve complex problems. With attention to detail and a problem-solving mindset, I thrive in both independent and collaborative environments, eager to make a meaningful impact through data-driven strategies.

TECHNICAL SKILLS

- Programming Languages: Python (Pandas, NumPy), R, SQL , Java
- Data Visualization: Tableau, Microsoft Power BI
- Data Tools & Platforms: MySQL workbench, Google BigQuery, Microsoft Excel, Google Sheets

WORK EXPERIENCE

System Engineer Infosys Limited	Dec 2021 - Oct 2023
• Interpreted and analyzed test data to identify defects, improve test coverage, and enhance software quality. • Managed test cases and logged defects using Jira, ensuring efficient communication and collaboration with cross-functional development teams. • Collaborated in Agile ceremonies including weekly stand-ups to report QA progress, resolve blockers, and align with sprint goals and project deadlines.	

EDUCATION

College Of Engineering Pune M.Tech(E&TC)	Aug 2018 - Oct 2020
• 7.2/10	
M.S.Bidve Engineering College Latur B.E (Electronics)	Aug 2012 - Aug 2017
• 63 %	
Dayanand Science College Latur HSC(PCM)	Aug 2010 - Aug 2012
• 80 %	
Shree Deshikendra High School Latur SSC	Jun 2009 - Jun 2010
• 96 %	

CERTIFICATIONS

• Google Data Analytics Professional Certificate - Coursera	Mar 2025
• Python for Everybody - Coursera	Apr 2025
• Introduction to Data Analytics in Google Cloud - Coursera	May 2025
• SQL-MYSQL for data analysis and business intelligence - Udemy	Sep 2024

PROJECTS

Google Data Analytics Capstone – Bellabeat Fitbit Case Study | R, Tableau

Mar 2025

- Conducted end-to-end analysis of Fitbit user data to uncover insights into user behavior.
- Applied R packages (ggplot2, dplyr, tidyr) to clean and analyze datasets, ensuring accuracy.
- Designed compelling data visualizations in R and interactive dashboards in Tableau.
- Generated actionable insights to inform Bellabeat's marketing strategy.

T20 Cricket Data Analysis | Python, Pandas, Power BI

Dec 2024

- Conducted a comprehensive analysis of player data to identify the optimal eleven cricket players based on specific performance criteria, enhancing team composition for competitive advantage.
- Converted raw data from JSON to CSV and conducted thorough data cleaning using Pandas in Jupyter Notebook.
- Used power query editor for basic data transformations and to create required DAX measures.

Pizza Sales Analysis | MYSQL, Power BI

Nov 2024

- Developed a Power BI dashboard that identified top-selling pizzas, increasing sales insights by 20%.
- Wrote SQL queries to extract KPIs and monitor performance metrics for business insights.
- Leveraged Power Query Editor to clean and structure data, and created DAX measures for insightful dashboards.

Superstore Sales Data Visualization | Power BI

Nov 2024

- Analyzing sales data to find out which category of products gives more sales, region wise sales, per month sales and profit and 15 days sales forecast.
