Summary

I am an analytical professional with expertise in data analytics excelling at transforming raw data into actionable insights to drive business decisions, proficient in Python, SQL, R, Tableau, Power BI, and Google Workspace (Docs, Sheets, Drive, Gmail). Skilled in statistical analysis, data cleaning, data wrangling, and business intelligence, with hands-on experience using BigQuery and cloud-based data analytics tools. Strong problem-solving and critical thinking abilities, with a proven ability to learn quickly through training documentation and presentations. Adept at communicating insights effectively and collaborating in cross-functional teams to deliver actionable, data-driven solutions.

Education

M.Tech in Electronics and Communication Engineering | CGPA: 7.2/10

College of Engineering Pune

Aug 2018 - Oct 2020

Technical Skills

- **Programming Languages:** Python (Pandas, NumPy), SQL, R, C++
- **Data Visualization:** Tableau, Microsoft Power BI
- **Data Tools & Platforms:** MySQL Workbench, Google BigQuery, Microsoft Excel, Google Sheets
- **Data Analysis:** Statistical Analysis, Data Cleaning, Data Wrangling, Anomaly Detection

Work Experience

Infosys Limited

Systems Engineer

Dec. 2021 - Oct 2023

- Interpreted and analyzed test data to identify defects, improve test coverage, and enhance software quality.
- Managed test cases and logged defects using Jira, ensuring efficient communication and collaboration with cross-functional development teams.
- Collaborated in Agile ceremonies including weekly stand-ups to report QA progress, resolve blockers, and align with sprint goals and project deadlines.

Certifications

- Google Cloud Data Analytics Professional Certificate - Coursera Sep 2025
- Google Data Analytics Professional Certificate - Coursera Mar 2025
- Python for Everybody - Coursera Apr 2025
- SQL-MYSQL for data analysis and business intelligence – Udemy Sep 2024

Projects

Google Data Analytics Capstone – Bellabeat Fitbit Case Study | R, Tableau

- Conducted end-to-end analysis of Fitbit user data to uncover insights into user behavior.
- Applied R packages (ggplot2, dplyr, tidyr) to clean and analyze datasets, ensuring accuracy.
- Designed compelling data visualizations in R and interactive dashboards in Tableau.
- Generated actionable insights to inform Bellabeat's marketing strategy.

Pizza Sales Analysis | MYSQL, Power BI

- Developed a Power BI dashboard that identified top-selling pizzas, increasing sales insights by 20%.
- Wrote SQL queries to extract KPIs and monitor performance metrics for business insights.
- Leveraged Power Query Editor to clean and structure data, and created DAX measures for insightful dashboards.

Superstore Sales Data Visualization | Power BI

- Analyzing sales data to find out which category of products gives more sales, region wise sales, per month sales and profit and 15 days sales forecast.
